

FROM THE AMAZON RIVER TO MOUNT EVEREST...

our diverse team events span the globe. Join special experiences at Marbach Castle in pure nature. During the informal, playful development of solutions or when leaving the „comfort zone“, a positive dynamic is created that strengthens creative work and forms excellent teams. Whether outdoors on the lakeside campus or indoors in the Design Thinking room, sporty when crossing the lake by canoe or sensual with culinary delights on the panorama terrace, the repertoire is extensive. Depending on the objective, expert coaches or the Marbach-Experience consultants support from concept to implementation. The stories of successful raft building, challenges mastered together on the climbing wall or the finale by the fireplace of the Jaegerbar are legendary. Examples of experiences for all senses: www.schlossmarbach.de/en/experience.

Leadership skills – learning through experience

Conscious learning through experience turns lone warriors into a team. Through playful activities and challenges, you experience extraordinary situations. You will find unexpected solutions and learn to react flexibly, communicate clearly, and show consideration.

Numerous installations for team and leadership exercises are available indoors and outdoors, as well as in the 17-hectare park or on the lakeshore. You can bring your own coach or, if you wish, we can put you in touch with excellent trainers and speakers.
